

Juliette Lee
Class of 1984

Committee Member

After leaving school, Juliette started a Bachelor of Business in Banking and Finance but halfway through, realised that she did not want to pursue a career in that subject. Juliette took some time off to travel and work then returned to a Bachelor of Arts (Psychology). She worked in marketing for some years at Tricom Group, an audiotext service provider.

These days Juliette likes to call herself a “Research Associate in Child Development and Human Relations”, seeing as she has devoted herself to the nurturing of her three children and husband!

Juliette has been a Lauriston parent since 2001 with her two daughters, Nicola (2013) and Jasmine (Year 12), having attended since Prep.

A few years ago Juliette was asked to represent the LPA on the OLA. She didn't hesitate to accept, knowing that she wanted to increase her engagement with the school community. Juliette feels privileged to have had a good education that has contributed to who she is today and she is a firm believer in giving back and hopes that by giving her time, she contributes to Lauriston's continued vitality.
